Course or Curriculum Development

- Co-Course Director for Population, Patient, Physician and Professionalism – a required Year 1 course that runs the entire first year. Introduces students to clinical medicine, population health, health equity, and evidence-based practice. Responsible for writing the syllabus, all assignments, and creating the NBME custom final examination. 2018-2019
- Course Director for Population, Patient and Physician – a required Year 1 course that runs through the entire year, and introduces students to clinical medicine, population health, and evidence-based practice. Responsible for rewriting the syllabus of the Clinical Medicine course to update and include elements of population health and cultural competency. 2016 – 2018

Also responsible for all training of students in evidence-based practice, which requires creating monthly worksheets for students. In AY 2017-18, this course started assessing students, such that they will be eligible for End-of-Year Honors. This entailed creating weekly Blackboard Assignments and a written examination. This course is taught in small groups by clinicians. The Course Director is responsible for identifying and recruiting and training the small group clinician leaders.

Course Director for Translational Medicine Year 2 – a required course consisting of three small group sessions that require students to do work outside of the meetings and report back. The topics are critical appraisal, identifying clinical questions and how best to answer them, and solving epidemiology calculations/problems. The Course Director redesigned the curriculum both academic years to continue to make it more self-directed. The Course Director is responsible for identifying and recruiting and training the small group clinician leaders. 2016 – Present

Interim Director, Family Medicine Clerkship – a required Year 3 clerkship for all medical students. Involves orientation session for 20-30 students, designing and updating the syllabus, and preparation and grading of the final examination. June – Sept.1999

Course Director, Introduction to the Patient Course -a mandatory small group problem-based introduction to clinical medicine for all Year I and II medical students; 500+ students each year. (The course was changed in 1998 to take place only during Year I.) Involved annual revising and updating of the course syllabi for students (100 pages) and small group instructors (170 pages), designing and teaching or arranging for teachers for the large group sessions, regular faculty development for small group instructors and office site preceptors, and coordination of large groups. Also developed competencies and evaluation system. 1995 - 2000

Curriculum co-coordinator for Family Practice Resident Didactic Conferences. Developed 18 month systems approach to ensure that all required topics were covered twice during the three year residency. Led many of the lecture/discussions and arranged for speakers from outside the department. 1992 -1995
